

Hydrotechnik
Products & Applications

Minimess® – Nothing compares to the Original

We make Measuring Technology – and that properly!

Minimess®: the Original

HySense® Sensors

- Mechanical interface
- For oil and gas
- Simplifies diagnosis and maintenance
- Reduces downtimes

Mobile hydraulics/pneumatics

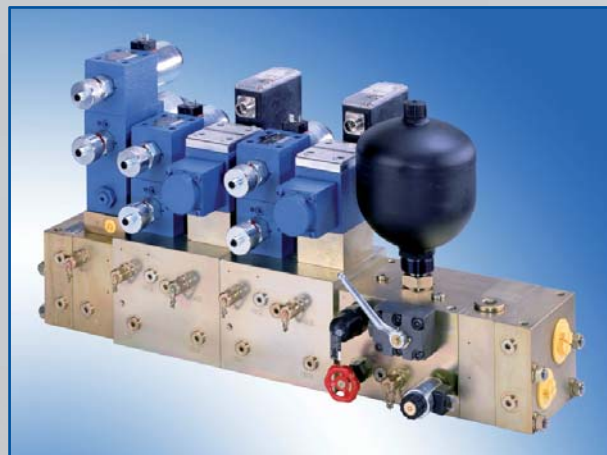

Agricultural/construction machines, utility vehicles, ...

- Measure physical variables
- Ideally tuned to Minimess and Measuring Systems
- For all measurands and ranges

Industrial hydraulics/pneumatics

Power units, machines, plants, ...

You want to measure –
we have the solution!

Electronical Measuring Systems

Service & Test Benches

- The best instruments in the market
- Extraordinary price-performance ratio
- Universal use
- Future-proof investment

- DAkkS Calibration Service
- Modernisation of existing test benches
- Team of specialists for measuring technology and engineering

Offshore

Oil and gas production, shipbuilding, ...

Further applications

Automotive, mining, research & training, ...

Positioned world-wide

- Headquarters in Limburg / Germany
- Subsidiaries in France, Italy, China and USA
- Network of representatives and dealers in Europe, Asia, Australia and America
